**HERO TEAMS**
Team Builders. Team Players.**HERO TEAMS**

Lead PHP Developer (Sydney OR Melbourne)

Advertiser:
Hero Teams**4 Feb 2021****Melbourne**, CBD & Inner Suburbs**\$100,000 - \$150,000****Full Time****Information & Communication Technology**, Developers/Programmers

About us

Founded in 2010, Hero Teams has worked with offshore and onshore teams for over 10 years and have had over 200+ successful projects and clients.

With offices in Australia and Ukraine, both teams work collaboratively to deliver high-quality work for our clients.

The opportunity

A fantastic opportunity is currently available for a **Lead PHP Developer** to join our team in either our Melbourne or Sydney office to contribute to the development of our platform by delivering well designed technical solutions in clean and maintainable code.

We are Agile and as a part of a creative, cross-functional team, you will play a key role in the

development process.

This isn't just another role but an opportunity to get exposure to a broader tech stack and grow in a highly skilled and collaborative team.

Key to this role is an awareness of data privacy and security as you will be dealing with sensitive data in accordance with Hero Teams' security policies and practices.

Responsibilities

- Work as part of a Scrum team
- Contribute in all the phases of the development lifecycle
- Troubleshoot, test and maintain our software solutions
- Write clean, high-scalable and testable code
- Develop and deploy new features the customers are asking for
- Contribute to our engineering culture
- Engage in technical discussion and follow industry best practices

Why join us?

- **Competitive remuneration** - you will be recognised with a highly competitive remuneration package that matches your skills/experience
- **People first culture** - we believe our people are one of the main reasons for our success and to recognise the hard work, we offer reward and recognition programs, meditation and yoga classes along with Mental Health programs
- **Ongoing development** - we have a strong focus on career development and planning and provide Agile coaching, L&D plans and regular workshops
- **Focus on tech** - Product Showcases, Team Hackathons, Innovation days
- **State of the art office** - work in style, with the technology you need, along with FREE barista-made coffee and monthly catered lunches/morning teas

As an employee of Hero Teams, you'll be a full-time team member that will work on our dedicated client's ongoing software projects (*we are not an agency and you won't be moved between clients*).

As an extension of the client's core team, you'll be embedded into their business either remotely (home), from the Hero Teams office or in the client's office.

Some additional perks of Heroes and our client's offices include Table Tennis, Beer & Cider on tap, onsite barista, golf simulator and mediation rooms.

About you

Required:

- Unrestricted Australian working rights
- Advanced knowledge of PHP and MVC frameworks (Symfony, Laravel)
- Experience in Relational Database Management Systems (Preferably MySQL)
- Demonstrated ability to write automated tests at multiple levels (unit, integration, e2e)
- Experience in an Agile environment

Desirable:

- AWS: Lambda, SQS, SNS, S3
- Continuous Integration: we use Jenkins, Bitbucket pipelines
- Experience developing medium to high volume SaaS apps

How to apply

If you have the skills, experience and passion to be a successful addition to our team, we would love to hear from you.

To register your interest in this exciting opportunity, please click the "**APPLY**" button and attach your CV and detailed cover letter today.

*****Hero Teams is ISO27001:2013 certified*****
